## Flavacol® Profit Maker Seasoning Salts

### World's Most Popular Seasoning Salt Because:

- "Alberger Process" salt is a finer flake, not a crystal.
- More of a "salt" sensation with less sodium.
- A far better buttery flavor than any other brand.
- Available as the original "Profit Maker Formula", "Premier" (no Yellow #5 or #6), or new "BB - better buttery taste".
- Available in handy quart size cartons, 45 lb. pails or 50 lb. bulk pack.
- All "Mega Pop" brand Portion Pak features "Original Profit Maker Formula" Flavacol®.
- Flavacol® is gluten free.

If you want to sell more popcorn, Flavacol® can be your secret ingredient! World-wide, more popcorn is popped with Flavacol® Seasoning Salt! The reasons are simple. Flavacol® users sell more popcorn and therefore make more money!

Flavacol®'s superiority starts with the salt itself -- a special Alberger Process salt that contains 130 million flakes per pound. The fine salt flakes stick to the popcorn, whereas a ground salt will tend to fall off. The Alberger Process also removes trace minerals that lead to a bitter taste if too much is used. Regular Flavacol® contains just the right blend of Yellow #5 and #6 colors to give popcorn a bright appealing yellow color -- just right for maximum sales appeal! Premier Flavacol® contains a heat stable Riboflavin for color -- use if your popcorn containers do not mention Yellow #5 and #6 colors. New BB Flavacol® has an even bigger buttery taste. Buttery flavor -- that's where we really shine.

Perfect for caramel corn and kettle corn operators. This is the monster in popcorn for monster profits. 50 lb. Single Bag.

### Corn Treat Mixes

### Caramel-Set® - #2087 Caramel-Set® - 1 lb. can

Caramel-Set® is a white powder that melts at a high temperature and forms a very thin vegetable oil film surrounding Candy Apples or Caramel Corn. Do not use with Glaze Pop®.

A heaping tablespoon per batch of Caramel Corn is all it takes. Candy Apples will hold up one or two at best.

### Corn Treats Bags

Poly bags can be sealed with the Impulse Sealer or Kwik-Lok ties.

Cat.#	Size	Measures (approx)	Holds
#2137	CT-2	5" x 9 1/2" (13 x 24 cm)	2 3/8 oz.

### #2520 Savory Shakes Bottle Holder

Now you can have Savory Shakes at your fingertips with the new Savory Shakes Bottle Holder.

Affixes to almost any popper. Display your savory flavors for all your patrons to see and use. Perfect for concession stands.

## Color-Pop Salt

Color your popcorn with Color-Pop Salt instead of plain salt. Try red for Valentine's Day, green for St. Pat's Day or create school colors for athletic events. Some require use of white oil. Color-Pop will tint the corn; not a dark coating like candy coated.

- #2420 Brown Color-Pop 4 lb. tub
- #2421 Pink Color-Pop 4 lb. tub
- #2422 Blue Color-Pop 4 lb. tub
- #2423 Green Color-Pop 4 lb. tub

## Flavor EZ Popcorn Coating

#2393 Flavor EZ Base Popcorn Coating  
The new way to make flavored popcorn. Using a concept similar to Cheddar Easy paste, Flavor EZ is a flavor and color free base that enables you to make flavored popcorn that holds the seasoning, and is loaded with taste. Instead of the crisp coating of a Glaze Pop, Flavor EZ gives you the tender texture of cheese corn, in any flavor you wish. Use any of Gold Medal's flavors - even Flosssine -- to develop your own creation. 30 lb. tub.

# The best Cotton Candy is made using Flossugar!

## Why use the most popular Ready Mix?

- Color, Flavor and Aroma are in there
- More People Pulling Power
- Easily Change Flavors and Boost Sales

### Gold Medal Flossugar

Gold Medal Flossugar is made from a special sugar – not too fine, not too coarse. Colors have been "vividized" so that you get a bright color, but color concentrations do not exceed the limits set down by Food & Drug Administration's GMP Directives.

Flossugar is packed in sealed 3 3/4 lb. cartons. Open the box and pour into the spinner head—no messy mixing or unsanitary sugar buckets. Inventory is easy and more accurate.

**For maximum Cotton Candy sales, change colors each time you add sugar to the spinner head**

**Flossine... The midway favorite of all the Pros. The color and aroma are in there – One pound colors and flavors about 200 lbs. of sugar!**

## Flossine (for professional operators)

Most large amusement parks use Flossugar, however, many professional operators simply add about one or two heaping tablespoons of Flossine to every 10 lbs. of regular granulated sugar. Mix thoroughly and it's ready to use. Flossine has been a favorite of professional Cotton Candy operators since Gold Medal introduced it in 1948. Flossine absolutely will not clog the ribbon heating elements. However, be careful of the sugar you mix with -- some contains corn starch which will clog the ribbons! Flossine gives your Cotton Candy the proper look -- the proper aroma -- and a great taste in every flavor! Be sure to change colors every time you fill the floss head. A variety of colors helps you sell more. Packed in 1 lb. jars.

# Gold Medal's Floss Cones are an industry standard...

## Cotton Candy Operating Tips

1. It's always important to run "Vanilla Pink" — that's the aroma that people associate with Cotton Candy.
2. Every time you empty the spinner head as you produce Cotton Candy, add a different color -- so your display will have a minimum of two colors for every 25 containers of Candee Fluff or bags of Cotton Candy.
3. To have two colors in one container, you really need two machines. Produce first one color and then a second color -- a smaller ring of each so that you have two distinct rings showing in the see-thru container or bag.
4. On the Midway, professional Cotton Candy operators will dip first out of one machine then a second -- and sometimes even a third to create three-color Cotton Candy. If you have a more captive crowd, you may not need this.

# Flavor Concentrates for Shave Ice and Sno-Kones®

## Make Your Own Syrups from Concentrates

Save over \$2.00 a gallon with Gold Medal professional quality concentrates for Shave Ice, Sno-Kone® or Slush. Gold Medal has been a leading manufacturer of Flavor Concentrates since the early 30's and today, this is the finest line of concentrated flavors available. Simply use 4 oz. of Concentrate, plus 5 to 6 lbs. of regular sugar to make a better topping syrup than you can buy from anywhere else!

### Sugar-Free Syrups

For Shave Ice/Sno-Kones®

#### #1400 Sugar-Free Syrupmak'r

You asked for it – an easy way to present a sugar-free alternative Sno-Kone® and Shave Ice.

Now, every Gold Medal concentrated flavor can be used to produce sugar-free, Ready-To-Use syrups and toppings. Feature at least a few "Sugar-Free" flavors for Shave Ice – you'll sell more. 36 packets per case. Ship weight 13 lbs.

### Ee-Zee Concentrates®

Ee-Zee Concentrates are by far the most popular product for making your own Sno-Kone® or soft drink syrups. Convenient pre-measured pouches take all the guesswork from making syrup. Just add sugar and water – that's all there is to it.

You do not sacrifice quality when you switch to Ee-Zee – the flavors are compounded by the same chemists that develop all our flavors. They know the problems in flavoring Sno-Kones®, and they give you top notch, full strength, richly colored syrups.

Ee-Zee Concentrates are packed 10 pouches per Junior Carton and make 10 individual gallons of ready-to-use syrup. Ee-Zee Concentrates may also be used as Slush Flavors. Each pre-measured pouch will flavor 5 gallons of slush.

### How to Use Gold Medal Sno-Kone® Concentrates

#### For a quart of Shave Ice or Sno-Kone® Ready-To-Use Syrup:

One oz. of concentrate plus 1/4 of a 5 lb. bag of sugar makes one quart of Ready-To-Use Syrup.

#### To make a gallon of Syrup:

Put 5 to 5 1/2 lbs. sugar in a clean, empty jug, add 4 oz. Flavor Concentrate, add hot water and shake well – top off and you are ready.

**To make a pint of Slush Concentrate:** Put 4 oz. Flavor Concentrate in a clean, empty slush bottle – fill to within 1" (3 cm) of top with water and shake. That's all there is to it.

**Note:** 1 oz of our Sno-Kone® concentrate flavors one quart of Simple Syrup or Sugar-Free Syrup.

## Funnel Cake Mixes...2 Choices

### Old Fashion

#5115

### "Old Fashioned" Funnel Cake Mix

If you have been burned by cheap mixes and have suffered excess cooking oil absorption, step up to our Old Fashioned Mix - special formula helps sear quickly - reduces cooking oil absorption. Six 5 lb. bags per case. Step up to Old Fashioned, but be sure to try the Pennsylvania Dutch. Then you be the judge.

### Deluxe "Profit Maker"

#5100

### Deluxe Pennsylvania Dutch Funnel Cake Mix 6-5 lb. bags

The Gold Medal "original recipe" Pennsylvania Dutch Funnel Cake Mix has become the favorite Funnel Cake of the professional operator.

Here are some of the benefits:

- **Convenient.** Six 5 lb. bags per case. This mix gives you the consistency from the day you leave winter quarters till the end of the season.
- **Lower grease absorption.** Every operator who has compared knows this to be a fact - the reason is in the recipe! You'll have lower grease absorption when you use better ingredients in your batter, so it "sears" the instant it comes in contact with 375° cooking oil. Little or no grease absorption means longer "pot life" on your oil - lower food costs on each Funnel Cake - more production per hour!
- **More profits per hour.** If you have to stop to add oil, that "shocks" all the shortening in your fryer and you are "out of business" until all of the shortening gets back up above 375°.
- **More funnel cakes per hour.** Measure your funnel cake success in total funnel cakes sales per hour - not on saving a penny on batter. You'll sell more with the deluxe mix.
- **The best flavor on the Midway!** These Funnel Cakes taste great! A little confectioners sugar or fruit topping compliments the great tastes of these Original Recipe Funnel Cakes.
